## North Portland Greenway Trail Alignment

### Project Advisory Committee Description

#### Overview

Portland Parks & Recreation and North Portland Neighborhood Services are committed to working together to provide a high quality trail and active transportation opportunity for all Portlanders. As part of this commitment, we are convening a group of interested community members to advise the development of the alignment study for the proposed Greenway Trail.

The vision of a continuous trail along both sides of the Willamette River has long been promoted by trail advocates in Portland. In a continuing effort to complete this trail, Portland Parks & Recreation applied for and received a Regional Flexible funds grant from Metro to determine the preferred alignment for the 10.4 mile long North Portland Greenway Trail. The project trail corridor extends from the East bank Esplanade at the Steel Bridge to Kelley Point Park. The North Portland Greenway trail is a key part of the metropolitan trail system which allows people to travel from Washington to Oregon and the Columbia River to the Willamette River. As the system grows so do opportunities for alternative transportation and recreation. When the entire trail is finished it will connect the most distant point of North Portland to downtown. By determining the alignment, this project will lay the ground work for the future construction of the North Portland Greenway Trail.

A Project Advisory Committee (PAC) will be appointed to advise the development of a trail alignment for the North Portland Greenway Trail. Each committee member brings a unique perspective that must be balanced with a community-wide vision. The committee's primary roles are to help engage the diversity of stakeholders impacted by the project, balance local and citywide needs and perspectives, and assist the City to serve people of all ages and abilities and accommodate a wide range of activities that promote health and wellness, arts and culture, and social interactions. PAC members are asked to provide advisory support to the project team and serve as representatives of the community.

The city is seeking individuals who can contribute in specific areas of expertise and who are willing to assist in outreach and communication. The PAC is not a decision making group but rather advises the project team.

Your brief responses to the following questions will help us determine how to best meet the needs of the community. (Please use the back of the page, if needed.) To be considered, please return completed form by **Monday, November 21** at 2:00 to:
